### MEXCAN TROOPS HURRIED TO THE FRONTIER OF GUATEMALA

City of Mexico, April 27.—There is a persistent rumor here today that rumors of a most disquieting nature have been received by the Mexican state department from Guatemala.

According to the reports, President Diaz has called a cabinet meeting to discuss Central American affairs. This meeting is said to be scheduled for tomorrow.

It is declared that the United States and Mexico have reached an agreement regarding Central American affairs and that important developments are about to materialize. It is reported here on good author-

ity that six battalions of Mexican troops have been ordered to proceed at once to La Pachulte Paca, on the Mexican-Guatemalan frontier. Whether this movement of troops is connected in any way with the recent disturbances in Guatemala could not be verified.

#### DR. CARMICHEAL VERY LOW

Dr. A. K. Carmicheal's condition last night was reported practically unchanged. He is gradually growing weaker. His brother, J. S. Carmicheal, of Franklin, Pa., is expected to arrive here today.

### JACK FROST DOES GREAT DAMAGE

Denver, April 27.—The killing frost of Saturday and last night touched Colorado only in spots, and while some trees are slightly the worse for the fall in temperature, others are cut off from yielding a single barrel of apples, or a basket of plums or cherries. The plum and cherry trees in and around Denver suffered most, and there is little chance that they will yield at all. The apple trees escaped with less damage.

Over on the western slope the frost bit with relentless vigor. It was not so severe as the freezing period of last April, but it did considerable damage. It is estimated, though, that if but 50 per cent. of the blossoms are saved it will be a good crop, because the trees were very heavily laden. The rest the orchards enjoyed last year made them too heavy with blossoms, all of which could not have matured. Smudge fires burned through Saturday and Sunday nights in the orchards on the western slope, those who have no fruit interests working hard to help those who have, so that Colorado might not suffer a second consecutive year of fruit famine.

#### GIRL SNEEZING TO DEATH

Atlantic City, April 27.—Miss Eva May English, of English Creek, on the mainland, is dying as a result of a sneezing fit that has lasted three days and which her physicians are still unable to check.

The girl started to sneeze after a coughing spell, and sneezed 325 times in one hour today. Her nose and throat passages are badly swollen from the constant racking. Experts have been summoned to try to stop the fatal attack.

### HUN WANTED FOR MURDER

Stabbed Son of Judge  
With Pitchfork in Na-  
tive Village of Varbo

Trinidad, Colo., April 28.  
Located by means of letters he wrote to relatives in his native land, Joseph Toth, a Hungarian employed by the Carbon Coal and Coke company at Cokedale, was arrested yesterday by Undersheriff Kreeger and United States Deputy Leonard De Lue on the charge of having murdered the son of the judge in his native village, Varbo, Hungary.

The deputy left yesterday for Denver with his prisoner and the matter will be brought before the United States commissioners at Denver to secure the necessary papers to enable the Hungarian authorities to take the prisoner back to that country for trial.

According to accounts of the crime for which Toth is wanted received here by relatives, the two men quarreled in a hayfield over the elec-

tion of the parish priest. Toth is alleged to have stabbed his victim with a pitchfork and Toth's father is also said to have attacked him with a knife. Both were tried and acquitted on the grounds of self defense, it not being known at that time that the judge's son was seriously hurt.

The assault is said to have taken place about eight months ago. Following the trial young Toth came to America and about two months ago, the judge's son died of his injuries. The elder Toth was again arrested and the Hungarian authorities have since been trying to locate Joseph. A few weeks ago, letters were received at the village of Varbo, postmarked Cokedale. Accordingly, Deputy DeLue was sent here in an effort to locate the man. Undersheriff Kreeger had no difficulty in locating the man because of a peculiar scar which he has over one eye. The man made no effort to escape from the deputy. He has two brothers working in the mines in this section.

A report gained circulation yesterday that the man was wanted in connection with an anarchistic plot to murder Francis Josef, but this story is repudiated by those who are familiar with the true facts.

Because it cannot understand George Ade's slang, London does not laugh at "The College Widow." But that is the whole joke of the matter. Alas! these dense British.

### DREADED PLAGUE TURNS BUSY CITY INTO PLACE OF SILENCE

Caracas, April 27, via Port of Spain, Trinidad, April 27.—As a result of the decree issued by President Castro closing the port of La Guaira for a period of fifteen days, La Guaira today is completely isolated and business is at a standstill. The train service between La Guaira and Caracas has been discontinued, a military and sanitary coron surrounds the port, no business is being done and there is practically nobody on the streets. There are several new cases of the fatal disease every day, as well as

several deaths from it. Houses where there have been death are being burned.

The government has not yet acknowledged that this illness is the bubonic plague, and it is impossible to get reliable official statistics regarding the cases and fatalities. According to information supplied by the consular corps there have been fifty deaths in five weeks.

There is a possibility that steamers will stop calling even at Puerto Cabello and as a result the price of provisions in Caracas is rising rapidly.
